RTP RX-3 Guar Tack

PRODUCT DESCRIPTION

RX-3 is a 100% organic tackifier manufactured from guar gum. **RX-3** is specifically designed for use as a hydraulically applied erosion control tackifier. **RX-3** is used as a stand alone, temporary erosion control product or is used in conjunction with a wood, paper, blend or another fiber mulch to provide superior bonding strength.

APPLICATION GUIDELINES

It is recommended that **RX-3** be applied at 10 to 20 lbs. per 1000 gallons of water depending on the machines capacity. When used as an overspray for straw, use **RX-3** at a higher rate of 20 to 40 lbs. per 1000 gallons of water along with 100 lbs. of mulch per 1000 gallons to serve the purpose of a tracer material.

MIXING INSTRUCTIONS

- 1) Add water to tank to cover almost cover the shaft of the lower or primary agitator.
- 2) While filling the tank with water and will the agitator running and medium to high speed, add the **RX-3** slowly.
- 3) After **RX-3** is thoroughly mixed, add the seed, fertilizer and mulch respectively.

PACKAGING

RX-3 Tackifier is available in 25 lb. pails as well as 50 lb. bags.
